

LEED Gold

Vail Resorts Broomfield, Colorado

- Knoll Life & Generation seating was used throughout this project.
- This project included approximately 400 workstations and 75 offices.
- Vail Resorts is a LEED Certified project.

Headquartered in Broomfield, CO, Vail Resorts is an international owner and manager of world class resorts. This rapidly growing company wanted an office that reflected their dedication to excellence, their appreciation of their employees and a commitment to sustainable practices. The Vail offices have a warmth and regional Colorado feel that is enhanced through the generous use of wood in their furniture.

Design Firm

BURKETTDESIGN
ARCHITECTURE INTERIOR DESIGN

The preservation of the panoramic views of the Rocky Mountain Flat Irons was a key design element and through the use of several Knoll systems products we successfully met the needs and budgets for the varying job functions while addressing all of the design criteria.
